## EDITORIAL

Those who kept close in touch with German propaganda in Spain during the war, says a writer in the United States paper, have never had any doubt that it was designed as much to secure the position of Germany in that country after the war as to maintain its neutrality in the war. And as the war went on, the former objective increased in importance and became the chief concern of the Germans. As one nation after another forsook its neutrality, and entered the struggle on the side of the

## This Drawing is from a Photograph

— That's  
why it  
means so  
much

It is from an actual photograph of Anna Case of the Metropolitan Opera singing in direct comparison with her own voice on the New Edison.

"But what's remarkable about this?" you ask. The amazing fact is that no human ear can distinguish the artist from the instrument; so perfect is the Re-Creation. This is what we call the "tone test." And it proves the truth of the Edison Company's claims about

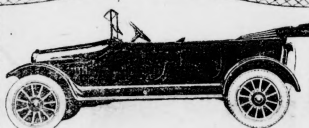

## The NEW EDISON

"The Photograph with a Soul"

It proves that the instrument does *re-creates*, not merely *imitates*. Hundreds of these tone tests have been conducted. More than 2,000,000 people have attended them. And not one could say when it was the artist he heard and when the instrument. With the lights lowered to hide the singer's lips the audience was completely baffled.

With our store for a demonstration of the marvelous New Edison have our store your home. No obligation, of course.

## Standard Value

**MOTORISTS** judge all light cars from the standard which the Gray-Dort has established. Some other cars are lower-priced but against this they balance Gray-Dort quality.

Higher-priced light cars give nothing that warrants more than the Gray-Dort price.

You will recognize the balanced value of the Gray-Dort - a

price well within reason, but not one desirable feature sacrificed. A quiet, powerful motor; standard equipment; comfort in riding and driving; economy; long service; proud appearance.

The touring car is \$2425; the Gray-Dort Special - the car with added refinements and extra equipment, is \$335 extra; there are also a coupe, and a sedan. All prices f.o.b. Clareholm, and are subject to change without notice.

### Announcement re Dominion Lyceum.

Owing to the influenza epidemic the program which had been arranged for entertainments during the winter months had to be considerably altered.

The guarantors however have made arrangements for the two following entertainments:

The Heverley Entertainers, on March 22nd.

Lecture by Sam W. Grathwell on April 4th.

The admission to both these entertainments will be by ticket, \$1.25.

Several tickets for the original series have been already sold at the price of two dollars, and the holders of these tickets will be allowed 75 cents on each ticket if they will apply to those from whom they purchased them.

The tickets for the two entertainments booked can be obtained at the drug store, or of any member of the committee.

### Ikey and Abe—The Two Laugh Makers

Did you ever stop to think that there is enough sorrow in the world? I have. But a real gloom chaser is Ikey and Abe at the Rex theatre Thursday, March 20. Mr. Bud Schaffer as Ikey is really the best gloom chaser of them all. If you want to know training and later in the world was what to do to the "Kaiser" hear Bud sing "What will we do to him boys."

Abe is one of the funniest Jew comedians on the road today, he is also a good dancer. It is worth the price of admission to see his own conception of "Scratching the gravel," a real song and dance.

Another character who plays Pickles the colored servant has a way of his own to make you laugh, when he sings "When I'm out in no man's land I don't want no music." You can't help wanting more.

Mrs. Ikey Cohen dresses and plays her part to perfection.

Getting the first \$1,000,000 is said by Carnegie Rockefeller and others fairly remote from the purchase, to be the most difficult financial operation on record. Many people find the saving of the first dollar a fairly difficult process. A way has been found to make it easy, painless and practically imperturbable. A modest little Thrift Stamp can be purchased for 25 cents, and with it a book in which to paste it is given free. As old stamps pop up, they are converted into more of these stamps and the first thing one has a book of sixteen

filled. Then this is changed for a Four Dollar War Savings Stamp, which is pasted in another book. This \$4.00 stamp draws interest at four and one-half per cent compound half-yearly. Buy another Thrift Stamp and start all over. Soon a second \$4.00 stamp is bought, and in a marvellously short space of time a \$40.00 book is full.

To the Average Man—Some one is bound to get your spare dollars, to say nothing of your spare 25-cent pieces. The question is—who will it be? Will it be some one with a "gold brick," or will it be the government which, in return, will pay you good interest? That's the question.

You know that in the making of investments you have made had mistakes. You have put hard earned money into things that never will and never could give you a return. More than this, you have lost your principal. You can't afford to do this any longer.

You had better let the Government have your spare dollars: it will even accept 25 cents from you. In buying War Savings Stamps you put it to the use of your money for five years, for which it pays 4½ per cent, compounded half-yearly.

In the article that appeared in this paper of February 28 in regard to Ray Henderson skipping to evade military service in Canada, there seems to be some misunderstanding. He was born and had lived in the United States, and as Canada and the United States were fighting for the same cause he preferred to join the U. S. army, which he volunteered to do, wishing to do his part in the world's war. He was sent to Camp Lewis for training and later in the war was honorably discharged, and the number of his papers are, Company 16, 4th Battalion, 166th Depot Brigade. Later on he took up his case with the Canadian government and they had no charge against him. As to his moving to the States, he has no intention of doing so, which his friends no doubt will be glad to hear.

Mr. and Mrs. J. P. Henderson.

### NOTICE OF IMPOUNDED ANIMAL

Notice is hereby given that two black sows and one small black and five red pigs were impounded in the pound kept by the undersigned on the N. E. quarter of 16-12-27 on the 9th day of March, A. D. 1910. If not called for by the 9th day of April same will be sold.

# The Clareholm Review-Advertiser's Campaign

## ONLY THREE MORE WEEKS!

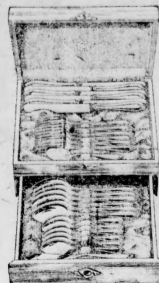

On the 5th of next month our campaign closes. This gives you only THREE more weeks in which to determine the prize that will be given when we announce the list of winners.

We have known candidates in similar campaigns to enter a contest and with only three weeks to work, secure the first prize. This fact is readily understood when you bring to mind the number of people that have already promised to help you and have failed to do so because a more active or enthusiastic candidate has got after them and beat you to it. Don't let this occur; if you have been promised a subscription or a renewal now is the time for you to get hold of it before some one else gets ahead of you. There are always candidates who fail to see that all those who have promised keep their pledges; this is your opportunity if you are alive to it.

### RULES OF THE CAMPAIGN

Any person, man or woman, married or single, is eligible to compete. Anyone may help a candidate secure subscriptions.

Voting ballots issued on subscription payments are good until the end of the campaign and will be pulled at the discretion of the candidate or The Review-Advertiser. Votes are not transferable, except in case a candidate wishes to withdraw from the campaign, and in that case he or she can give their votes to a person not already entered as a candidate. A person cannot receive credit for the votes of more than one candidate. In other words, no two or more candidates can give their votes to any person. In case of a tie for any of the prizes offered, the value of the prize tied for will be divided equally among those tying. The Review-Advertiser's decision will be final in all matters pertaining to this campaign.

Candidates may secure subscriptions anywhere. Cash must accompany all subscriptions where votes are to be issued.

**Second Prize, the \$50.00 Set of Silver, will be awarded to the candidate having the second largest number of votes at the close of the campaign.**

**Third Prize, the \$25.00 Lady's or Gentleman's Gold Watch, will be awarded to the candidate having the third largest number of votes at the close of the campaign, and so on until the Prizes have all been awarded.**

### EXTRA VOTE OFFER

During the Campaign there will be two offers of extra votes. The first offer will start on the 8th of February 1919 (the opening date of the Campaign) and will last for three weeks, and will be as follows:

1000 Bonus Votes will be given to each and every candidate who sends or brings \$25.00 in subscription payments to The Review-Advertiser office during this period. The larger the amount you send in the more votes you will receive; for example \$27.00 in subscription payments will give you 1080 extra votes, and so on, which means a proportion of 40 extra votes given for each dollar over and above the \$25.00 already mentioned.

The second vote offer will start at the expiration of the first offer and will last for two weeks, and will be as follows:

500 extra votes will be given to each and every candidate who sends or brings \$25.00 in subscription payments to The Review-Advertiser office during this period.

### FOR FURTHER PARTICULARS

Write, phone or call at The Review-Advertiser's office, you will then be supplied with the necessary blanks.

You can get subscriptions anywhere.

There are good prizes to be given.

There are also Cash Commissions.

### Labor Leader Endorses War Savings Plan

Tom Moore, president of the Trades and Labor Congress of Canada, is today, by reason of his position, the recognized leader of organized labor in the Dominion. He is also a man of international standing. The advantages of the War Saving plan are obvious to him, as the following statement shows:—

"During this reconstruction period the question of eliminating unemployment is one of the vital problems, and the government, by the carrying on of essential public works, etc., can materially help and thus stabilize the labor market. In order to do this money must be forthcoming.

"The pre-war methods of financing were unequal to the requirements of war time, and regulations imposed by other countries made it necessary to se-

cure money direct from the people of Canada. The sale of Victory Bonds was instituted and the marvellous success achieved proved the value of the policy of placing the purchase of these within the reach of the greater number by introducing the low denomination of fifty dollars.

"Even greater success can be achieved by still further reducing the minimum amount which can be subscribed and Canada has now decided, through its War Thrift Stamp Saving scheme to offer opportunities by which not only the men and women, but the children of the country, can help to provide the money which is still urgently needed to carry on. The humble 'quarter' is at last being mobilized into the country's service. All should lend their aid and make the aggregate sum secured so large as to prove for all time that the workers of Canada can finance their own undertakings."

F. Downs is expecting a call to Chicago, to be near during the operation which it is thought necessary to save the life of his little girl. Mr. and Mrs. Downs spent the winter in Spokane in order to get the best possible medical treatment, but without much result. When Mrs. Downs's brother, who is a doctor, returned from the war they decided to place their daughter under his care. When Mr. Downs came to Alberta to attend to various business matters, Mrs. Downs proceeded to Chicago with the little girl.

The Publicity Committee of the War Savings Campaign met last Tuesday and formulated plans for a real live savings scheme for the entire district. Speakers will shortly visit all the schools and organize war savings associations. It is expected that Thrift Stamps will soon be on sale at all the stores. The need is just as great as during the war. The great reconstructive plans that are being launched by the government can only be brought to a successful conclusion by the nation co-operating with it by investing its savings with the government. Waste is as criminal today as it was during the war.

But Schaffer, manager of the "Box & Aley" Company, plays the Rex theater on Thursday March 20, has the famous "Jass" band that is creating such a furore at the New York Hippodrome with its syncopated melodies in conjunction with the Key & Aley comedy quartette. This band is a correct reproduction of the "Jass" band that is being highly featured at the New York Hippodrome. There are also 22 other big musical and song hits with this company. **Mary's Letter to Florence**

Dear Sister Florence—

In your last letter which we all read, Fred was most particularly impressed with your mention of the children. Of course we have only one it is true, but Mary is now 17 and we are beginning to realize our grave responsibility towards providing her with happy company and healthful surroundings. You can't accomplish much along such lines in a shack. As Fred says, years ago we housed our horses and cows in sod barns and they paid us accordingly; now we take care of them in real barns and they return full interest on such investments. Would we count our children less than our stock?

Last evening "Hilby" drew a rough sketch of a parlor and den with an enticing wide screened verandah. I am very hopeful.

Your loving sister Mary.

## Remarkable Work of Munitions Ministry

London. — Frederick George Kellaway, parliamentary secretary for the ministry of munitions, gave some remarkable figures in the house of commons regarding work of his department. On November 16, he said there were 33,000 separate contracts outstanding which involved a liability of £325,000,000. The expenditures of the ministry of munitions during the war totaled £1,838,000,000. There are large surplus stocks to be disposed of, ranging from tacks and rivets to guns and glue. They are scattered over three continents.

Apart from the work done by private firms, 132 national factories were established at an expenditure of £60,000,000. Others were altered at a cost of £5,000,000. Thirty of these factories will be retained for storage purposes and others will be held for emergencies.

The Woolwich arsenal is still working to meet any military emergency. Mr. Kellaway stated. The employees there, instead of being demobilized, are being employed in repairing motor lorries and in production of articles needed by the army when it is placed on a peace footing.

## Assisting the Settler

A Policy Pursued by the Local Government of Manitoba which Deserves the Highest Commendation

(By W. W. Fraser, Live Stock Commissioner)

I have reference to the scheme known (and at one time much ridiculed) as "The Cow Scheme." This plan is being operated under an Act passed by the present Government at the Session of 1916, and was adopted because of conditions that existed in some of the outlying districts of the province, where the struggling settler was known to be working under extreme disadvantages. His means not permitting him to purchase, in some instances, even one cow, and where forces of circumstances meant that his herds that he might acquire, he was unable to keep his family supplied with the absolute necessities of life. He was obliged to seek employment faring on the lake during the winter months, and again was often forced to return to the city during the summer months and leave his family with this true of the settlers between Lakes Manitoba and Winnipeg, where the majority of the cows furnished under this policy have been placed. It will be readily seen that these conditions necessitated the absence from home of the bread-winner during the greater portion of the year and as a consequence his family were deprived of his influence and parental care, and the required improvements on the homestead had to be foregone. Very often this family was forced to live in a one-roomed shack, and scarcely any improvements on the homestead.

The above scheme permitted these settlers to receive a small stipend, by way of a club, or a number of settlers going together, cows up to the number of five to each settler. In each case an inspection is made to determine the capability of the individual as to the number of cows he is in a position to care for, after which inspection, cows are advanced up to the number of five, as above stated, according to the man's ability to care for them. The terms are five years, the first payment falling due November 1st, following the year in which the cows are advanced.

The cows are all purchased with either calf at foot or due to calve in a very short time. A new avenue of life is opened to the settler, and his receiving cows and he is shown the path of escape from previous hardship. Milk is provided for his children and he can ship his butter and cream from the nearest station to the city. The cheque for the cream is received and he is able to purchase

## Union of Teutons

Berlin. — German newspapers received here contain a semi-official communication concerning negotiations between Dr. Otto Bauer, foreign minister in German Austria, and the German government for a union between German Austria and Germany. The union, says the communication, will be promulgated as soon as questions of detail now being discussed by the various commissions set up for that purpose are settled and a treaty drafted which will be submitted to the two national assemblies.

The necessities of life by paying cash, instead of being forced to leave his home to earn money. Usually the family can do the work in connection with the cows while the man carries out his business. The union under cultivation more land from year to year. Thus the land becomes more valuable, the offspring of the cows growing up and adding to the herd, meat is provided for the family, and in all the home is put on an economic basis. The union is given to the father and mother as well as to the children, and instead of the previous desolate home a real home of thrift and industry is established. In this way the entire settlements where these cows have been placed are put on a new basis of life.

Where one creature was in operation, there are now five and have been for the last two years, two of which have been mounting a car of butter each per week. Whereas an importation of 55 car loads of butter was necessary to meet the requirements of the province in the years 1912 and 1913, there was an exportation during the year 1918, of 173 cars of butter and the above mentioned act is unquestionably very largely responsible for this change, the benefit to the country from which will be readily realized. The consumer at large is a direct beneficiary, as beyond a doubt the price of butter has been reduced by this vast increase of the product.

As above stated, the first of these cows were placed early in July, 1916, and in November, 1918, about 3,842 had been distributed and the department had a record of 6,000 of their progeny. The cows sent to the province from this vast increase will be readily seen and is extremely gratifying.

I know of no act that has had a more direct bearing on the communities at large, not only from a financial and economical standpoint but also from a moral standpoint. Much credit is due the Hon. Valentine Winkler, minister of agriculture, to the late Polish ambassador, who using energy and influence in connection with the said "cow scheme" or "settlers' animal purchase act," as well as many other schemes, for the advancement of agriculture and particularly of the live stock industry.

Mr. S. G. Sims, purchaser agent of the "settlers' animal purchase act" is responsible for the successful prosecution of this valuable and commendable enterprise, which puts the possibility of success within reach of the man and family who, because of environment could not help themselves.

**Bolshevik Food Dictator Averted.** — The Russian food dictator averted here from Helsingfors says that the Bolshevik food dictator in Petrograd, with an army of 150,000 men, is now busy with enforcing fifty million roubles. ## Canadian Goods at Lyons Fair Enormous Crowds Admire Dominion Exhibit

Lyons. — Enormous crowds, among which were thousands of foreign commercial and industrial men, thronged the Grand terrace at the official ceremony marking the opening of the fourth annual Lyons fair. The whole city was gaily decorated with the flags of all the allied nations being represented. The fair is held in all buildings and private residences.

Great numbers of American, British, Canadian, Australian and Italian soldiers were to be seen among the thousands who cheered the mayor of Lyons, Senator Edouard Herriot, when, at the invitation of the chairman of the meeting, Jean Guignot, president of la Chambre de Commerce of Lyons, he declared the fair open.

The speaker referred to the audacity shown by Mayor Herriot in the organization of the fair 1918. He said France was hard pressed at Verdun. He also gave tribute to Canada, for participation in the present fair, as well as her successful share in aiding France on the battlefield until the final victory was won.

The Canadian exhibit includes 53 firms, the Canadian National railway, the departments of mines, agriculture and commerce, and the Pacific railway, with all the Canadian industries represented.

**Campaign Started Against Armistice** — German Cabinet Threatens to Resist

Paris. — At a meeting of the German cabinet, attended by party leaders and delegates of shipowners, it was decided to resist the armistice, according to a Zurich dispatch to Le Journal.

The German cabinet declared that it will decline all responsibility for possible consequences if the "entente" tries to speculate on German patriotism.

Demands regarding the regulations of shipping are held to be absolutely impossible because, it is said, it would definitely "paralyze" the country's economic future.

The cabinet also opposed the dismissal of German crews from ships requisitioned, it being pointed out that this would throw 42,000 seamen out of employment.

A press campaign has already been started against the armistice and the preliminary peace conditions.

**Polish Premier Favors League** — Somewhat Netted at Opposition to Warsaw. — "Can you oppose Bolshevism with the Bible? That is a question which the world is facing today," the Polish premier declared.

## Fourteen State Banks In Minnesota Blow Up

Reports Expected to Be a Heavy Loss Depositors

St. Paul. — Minnesota banks announce the failure of 14 State Banks. The list of these banks is an interesting one, as follows:

Augusta State Bank, Augusta.  
Chisholm State Bank, Chisholm.  
Farmers State Bank, Collegeville.  
Farmers State Bank, Frontenac.  
Farmers State Bank, Long Siding.  
Marine Mills State Bank, Marine Mills.  
Farmers State Bank, New Prairie.  
Farmers State Bank, Skyberg.  
Farmers State Bank, St. Bonifacius.  
Hamel State Bank, Hamel.  
St. Louis Park State Bank.  
Vernon State Bank, Vernon.  
Farmers & Merchants State Bank, Watertown.

The control of the small capital stock of these banks was obtained by a couple of adventurers, who then used their inside knowledge to borrow some \$100,000 from such banks, on notes and other securities much of which were worthless. The banks expected to be a very heavy loss to the depositors, whose deposits aggregated about \$1,439,964. The menace of a banking system which permits capital to be started on very small banks to scarcely be more effective than the one which has been in operation in Minnesota.

At the recent convention of the United Farmers of Alberta a resolution was passed to demand that the Dominion government to sanction the establishment of local banks, to be controlled by the farmers, in speaking to this resolution, Mr. Vere Brown, vice president of the United Farmers of Alberta, drew attention to the fact that the responsibility of the government of

## Move Against Jews

Sofia. — An anti-Semitic movement of serious proportions in Bulgaria is reported in the Jewish newspaper, El Liberator. A bomb was found in the central Jewish synagogue in Sofia. It was intended to explode at a time when a religious service was being held with worshippers, and it is alleged that it was placed there by Bulgarians.

**All Troops Home by June** — Victoria. — In a letter received here from Gen. Currie, written on Feb. 7, he says that most of the 3rd Division in England are to be sent home. The 1st, 2nd and 4th Divisions he writes, will follow in the order named. The policy had been decided, he says, in Canada before the end of the war. The corps headquarters is now at Bonn, Germany.

James Black at the Age of Eighty-Five is Showing the Praises of the Great Canadian Kidney Remedy, Dodd's Kidney Pills.

Guelph, Ont., Mar. 10th (Special). — "I would have had in undergo an operation, or be dead only for Dodd's Kidney Pills. These are strong words. But Mr. James Black, an old gentleman who moved here recently from England, is a case in point. He is now without hesitation.

When asked if he was able to rest, he replied: "I am able to rest, and to take a long walk, and to go to the theatre, and to do all the things that I want to do. I am now without hesitation.

Canada was towards those whose money is deposited in the banks, and he pointed out that taking at random the case of our nearest neighbor, namely, North Dakota, there had been failures of small banks in that state since 1903 which had involved losses to depositors aggregating \$300,000.

The echoes of the Alberta convention have hardly died away, before the above failures are chronicled. Imagine what the effect would be if a similar occurrence had happened in any one of our three western provinces—imagine depositors at 14 different places in Alberta, to an aggregate of \$1,439,964 facing the loss of a large part of their savings.

Whatever disadvantage may exist in the service rendered the western farming community by our chartered banks, it is questionable if the introduction of local banks as suggested by the farmers of Alberta would be a successful or desirable remedy.

## Majority of Workers Opposed to Strike

Berlin. — The Vorwarts, the socialist organ, reports that the result of the secret ballot taken on the strike issue in eighty Berlin plants showed that more than 20,000 workers were opposed, and that 7,900 were in favor of a strike.

The workers in numerous foundries, the newspapers are said, were stamped into a strike by the radicals before the soviet took official notice.

Gustav Noske, minister of defence, has ordered the troops to arrest all strikers and leaders of the strikers are guilty of rioting or intimidating workers.

## Food for Poles

A Total of 17,000 Tons Has Reached Danzig

Paris. — The following statement was issued by Herbert Hoover, United States relief administrator:

"The ship Westward Ho reached Danzig carrying 6,000 tons of food for Polish children, and 11,000 tons of American commodities of Jews and Poles. The food will be rushed to the relief of the Polish children, and the Polish committees under the direction of representatives of the United States relief administration on the spot to successfully operate in Belgium and Northern France.

"A total of 17,000 tons of food has reached Danzig during the past three weeks. This is the beginning of a total monthly program of 10,000 tons, necessary pending the arrival of other ships on the way.

Co-operation is extensive and intelligent, and each fresh arrival of food is met with a hearty welcome by the people, and is accepted as proof that America will see to it that the new world has the chance to find itself and quickly become self-supporting.

**To Fix Frontiers** — The central commission meeting, elected André Tardieu, of the French peace delegation president, has decided the commission to coordinate all decisions of the special territorial commission.

**Ontario Seedlings** — Nearly 500,000 bushels of superior quality Ontario seeds have been shipped to the western provinces for seed purposes.

The seed inspection staff examined every carload at points of shipment and found that the seeds were of superior quality and that the seeds were free from wild and noxious weeds and of superior quality of grain.

Berlin. — The military situation on the eastern front is painted in blackest colors by Field Marshal von Hindenburg in an interview declared there. The field marshal pointed out that unless the population rallied to the defense of their homes and families, it will be impossible to ward off attacks by Bolshevik forces.

"The explosion of the Poles and the attack that the Poles will succeed to the German inheritance in the east will be blasted," he says. "I know the Poles and the country in the east will belong either to us or to the Bolsheviks."

Newspapers here appear to be of the opinion that the strike movement has reached a climax, and that there are indications that the political issues involved will not only adjustment through negotiations on a Weimar. The independent Socialists seem to be backing away from the movement now and are endeavoring to unload the responsibility for the outbreak on the Spartacists, who are accused of having precipitated the strike before organization plans had been thoroughly perfected.

## Safe Retreat for Kaiser

Pan Germans Say Government Must Furnish Protection

Berlin. — The German national assembly has reached a decision in honor bound to furnish a safe retreat on German soil for former Emperor William and his wife, according to a statement made by the Pan-German league at a meeting held at Hamburg, Bavaria. The proclamation (see elsewhere) that political responsibility for the suicidal armistice of November 11, is definitely fixed on the German parties expelled from the public service.

## Why Can't I Get To Sleep?

Thousands of people all over the country ask this question, but still do not know the answer to it. It is a sleepless lack, and it is impossible to get to sleep. This is the only way you can get relief to the cause of sleeplessness.

Some constitutional disturbance, worry, or stress has so debilitated and irritated the nervous system that it cannot be quieted except by the use of the most powerful sedative, and the most powerful sedative is the most powerful sedative.

## French Senate Urges Punishment of Hungs

Paris. — The French government is asked to make every effort to secure the punishment of all German officers and soldiers found guilty of plundering or causing devastation in the occupied regions of France. The bill is introduced by Senator Reynald, on behalf of the senate committee, which recently visited the devastated districts.

The report asks the government to call the attention of the allied powers to the German methods of destruction and urges the government to hasten the restoration of stolen property. The government is urged to hasten material reconstruction and to all the economic life of the people affected, the prisoners will return to Ireland in small batches.

**Should Educate Foreigners**

Winnipeg, Man.—Drastic steps should be taken immediately to educate all children of foreign birth in the country and prevent the spread of crime. This is the advice of the Manitoba grand jury after inspecting all governmental institutions.

The jury members claimed that eighty per cent. of the crime coming up for hearing before them in this state was committed by those of foreign birth. Most of the girls and boys appearing as witnesses could neither read nor write. By a more forcible method of compelling the children to attend school the amount of crime in Manitoba would decrease.

**Record Price for Seed**

Regina, Sask.—The grain growers of Manor in February, 1918, organized a co-operative system of shipping live stock and they have shipped to the Union stock yards, St. Boniface, 749 hogs and 200 cattle, on which was realized \$46,000. A Jockey sent a Durham bull which weighed 2,375 pounds and sold for 10½ cents per pound, or a total of \$248.37, a record price for this class of live stock. J. W. Cunningham superintended the shipping for the association.

## SUNDAY SCHOOL LESSON

### LESSON FOR MARCH 18—THE CITIES OF REFUGE

1. The Reed of the Cities of Refuge (101-3).

Justice everywhere cried "An eye for an eye," "A tooth for a tooth." "Blood for blood," and the avenger of blood was charged with the duty of satisfying this cry. While justice should not be allowed to miscarry it must be important that there be mercy shown. Sometimes just men forget to be merciful. In order that the innocent be protected and mercy shown to the unfortunate, and yet justice be done the cities of refuge were authorized. It was not a scheme by which the criminal was screened from justice, but a provision whereby the innocent was protected.

2. Regulations Touching the Cities of Refuge (201-4).

1. The right of entrance not to be denied (v. 4). It was obligatory upon the rulers of the city to admit upon the basis of the one who had killed a man, pending a trial which would disclose the fact as to whether the crime had been intentional or not.

The security of the one who entered the city (v. 5). The rulers of the city did not dare to deliver the man slayer to the avenger of blood for punishment, until a trial had been given; neither could the avenger cross over the threshold of the city to touch a hair of the one who had taken refuge in it.

3. The right of trial (v. 6). This provision of mercy made it so that the refugees could be safe with careful investigation was made as to whether he had killed "unintentionally" or by wicked purpose. If it should be proved that the man was guilty, he would be delivered over to the authorities to the avenger of blood.

4. The innocent slayer must remain in the city (v. 6). Even though the trial should exonerate him from the crime of killing, yet he could not remain in the city in order to be saved. So grave is the act of taking a human life that even the innocent man was obliged to be separated from his home and friends at least until the death of the high priest. This deprivation enforced the obligation to shield life.

5. The appointment of the Cities of Refuge (v. 7).

(1) Kedesh in Naphtali on the north; (2) Shechem in Mt. Ephraim on the north; (3) Hebron in the south.

(4) On the east side of Jordan (v. 8): (1) Golan in Bashan on the north; (2) Ramoth-Gilead in Gilead in the south; (3) Bezer in Reuben in the south. In this distribution there was a careful balance of cities in each of these directions.

These cities were not only in reach, but good roads, well marked, led to them so that the refugee might reach a place of safety before being overtaken (Deut. 19).

This beautifully illustrates the religious which man has in Christ. It is his necessity. Since he is a creature of wicked purpose men did kill, in order to be saved from the avenger these cities were appointed and they have since and are exposed to the wrath of God, therefore if any be saved a place of safety must be provided in Christ. (2) This was by divine appointment. "O I live in Christ Jesus." (1 Cor. 1:30).

(3) The cities were accessible to all. They were so distributed that wherever, the unfortunate circumstance should occur the slayer could flee to the city before being overtaken. Christ is not far off. The Bible shows what great effort God makes to save men. (4) The one who fled did not dare cross over the threshold of the city. Every one who is in Christ is in Christ. It is a thing to the charge of God's elect (5) The individual must flee to the city. The man who would be exposed to danger if he remained at home or outside of the city. The sinner, if he would be saved, must come to Christ. There is no place of safety for those who remain away. The safety in Christ is even more vital than the cities in this class. To him the guilty can flee with the assurance of safety.

Tells how to loosen a sore, tender corn or it is sufficient to rid one's feet of every hard or soft corn.

Good news spreads rapidly and distress here are kept busy dispensing freezers, the other discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so shriveled that it lifts out with out pain. It is a sticky substance which dries when applied and never cracks or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the surgical habit of cutting corns.

**Takes Time**

"Charley, dear," said young Mrs. Torkins, "have you a minute to spare?"

"Yes."

"Well, I wish you would tell me whether what I must do is a matter of minutes or of hours or of days or of months or of years."

No matter how deep-rooted the corn or wart may be, it must yield to Minard's Corn Cure if used as directed.

**New Mines Opened**

**Output of Coal in Alberta Is Increasing**

Edmonton, Alta. — Some interesting figures have been compiled by John T. Stirling, chief inspector of mines for Alberta, showing the output of coal in the province during the past year and showing its relation to that produced in all Canada. During the year the consumption of coal in Canada was 37,337,065 tons, of which 25,057,065 tons were imported from the United States and of that 2,599,410 tons were imported into Western Canada.

The year 1918, 61,842,620 tons of coal were produced in Alberta, 100,470 tons of briquettes, 32,838 tons of coke and 9,988 tons of shale for the making of bricks. There were 7,687 tons of bricks sold. There were, during the year 1918, 317 coal mines in operation in the province of Alberta, and two copper are mines and two shale mines.

Seventy new mines were opened during the year, also as well as nine which were re-opened. Offsetting this to a certain extent there were 71 closed.

It is interesting to note that to operate these mines on an average 2,633 persons above ground and 6,144 persons below ground were employed.

**BEESKEEPING PROFITABLE**

Production of Honey in Western Canada Steadily Growing

Although the production of honey in Western Canada is steadily increasing, there is room for a considerable increase. Very few are the places in Canada where the industry cannot be carried on profitably. At all the government experimental farms, a considerable quantity of honey has been produced every year for a number of years. White and alkali clovers have been the principal sources of honey at the farms, with the exception of that at Lethbridge, where most of the honey is produced from alfalfa, which is grown with irrigation. Especially at Lethbridge, the alfalfa is being kept growing a profitable side line, for in addition to alfalfa he can grow large crops of white and alkali clover and most other crops favorable to the production of large quantities of honey of first class quality.
